1 Client-server computing in mobile environments
Jin Jing, Abdelsalam Sumi Helal, Ahmed Elmagarmid
June 1999 Computing Surveys (CSUR) , Volume 31 Issue 2
Publisher: ACM

Full text available: 📄 Pdf (233.31 KB)   Additional Information: full citation, abstract, references, cited terms, review

Bibliometrics: Downloads (6 Weeks): 85,   Downloads (12 Months): 626,   Citation Count

Recent advances in wireless data networking and portable information applianc engendered a new paradigm of computing, called mobile computing, in which u carrying portable devices have access to data and information services ...

Keywords: application adaptation, cache invalidation, caching, client/server, d dissemination, disconnected operation, mobile applications, mobile client/serve compuing, mobile data, mobility awareness, survey, system application

2 Scalable and fault-tolerant support for variable bit-rate data in the exedra st server
Stergios V. Anastasiadis, Kenneth C. Sevcik, Michael Stumm
November 2005 Transactions on Storage (TOS) , Volume 1 Issue 4
Publisher: ACM

Full text available: 📄 Pdf (1.01 MB)   Additional Information: full citation, abstract, references, inde

Bibliometrics: Downloads (6 Weeks): 17,   Downloads (12 Months): 71,   Citation Count:

We describe the design and implementation of the Exedra continuous media se experimentally evaluate alternative resource management policies using a prot system that we built. Exedra has been designed to provide scalable and efficier support ...

Keywords: Content distribution, multimedia compression

3 Experiences with Mirth: an open source health care integration engine
Gerald Bortis
May 2008 ICSE '08: Proceedings of the 30th international conference on Software engineering
Publisher: ACM

Full text available: 📄 Pdf (253.04 KB) Additional Information: full citation, abstract, references, inde

Bibliometrics: Downloads (6 Weeks): 24,   Downloads (12 Months): 131,   Citation Count

Integration engines are a crucial piece of the health care information technolog Health care organizations like hospitals and clinics are faced with vast amounts and a slew of interchange standards and protocols when addressing the issue ..

Keywords: health care integration, middleware, software architecture

4 Extracting usability information from user interface events

David M. Hilbert, David F. Redmiles

December 2000 Computing Surveys (CSUR) , Volume 32 Issue 4

Publisher: ACM

Full text available: Pdf (1.50 MB) Additional Information: full citation, abstract, references, cited terms, review

Bibliometrics: Downloads (6 Weeks): 82, Downloads (12 Months): 801, Citation Count

Modern window-based user interface systems generate user interface events as products of their normal operation. Because such events can be automatically c and because they indicate user behavior with respect to an application's user in ...

Keywords: human-computer interaction, sequential data analysis, usability te: user interface event monitoring

5 A real-time multimedia composition layer

Stefan Müller, Simon Schubiger-Banz, Matthias Specht

October 2006 AMCMM '06: Proceedings of the 1st ACM workshop on Audio and mu computing multimedia

Publisher: ACM

Full text available: Pdf (2.00 MB) Additional Information: full citation, abstract, references, inde

Bibliometrics: Downloads (6 Weeks): 17, Downloads (12 Months): 55, Citation Count:

We introduce a light-weight multimedia composition layer which is situated on existing music, sound, and graphics frameworks and libraries. The layer provide applications with a programming interface for multimedia composition, automa time ...

Keywords: cross-media processing, multimedia composition, multimedia fram and libraries, real-time multimedia
